

# NMBR9

## RULES

### 1) Setup

- 1 – 4 players, each player gets a **Scorecard**
- One player draws cards, all place tiles at the same time

### 2) Placing Tiles

- Rotate any way you want, place faceup

- Tiles have to touch

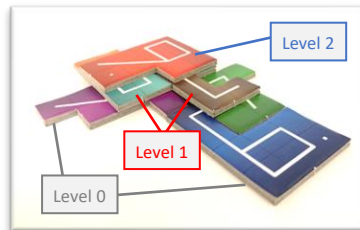

- Higher levels: Cover 2 or more tiles, no overhangs

### 3) Scoring

- Multiply the number on the tile with the level they are on
- Use a copy of the **Scorecard** to add your points

Level	Tiles Placed (add up)	Multiplier	Total
4		× 4	
3		× 3	
2		× 2	
1		× 1	
0 (table)		× 0	
Score:			

### 4) Ending the Game

- Game ends when all 20 cards are drawn
- Player with highest score wins

## NUMBER TILES

## THINK ABOUT WHILE YOU'RE PLAYING

First, spend some time exploring the game!

Then, consider some of the following questions:

- 1) What do you find challenging?
- 2) Are you playing to win? Do you celebrate your friends' wins?
- 3) How do you play with your team members? Do you help them, or do you ask for help?
- 4) What's one good idea you want to share with your team members?

## EXTRA CHALLENGE

- You get to design a new piece for number 10. What would it look like?
- How many levels do you think is the maximum someone could get to for this game?
- What's the highest number of points you can score?
