

Reflection Sheet: Nmbr9

Your Name: _____ Team Members: _____

1) Analyzing and Fitting Tiles for Creating Effective Table Layer (i.e., Base)

Using the space below, **draw pieces** that you think are best for creating your table layer (bottom layer). Using drawings or words, **explain why** it is the best:

Tip: Try using arrows to point to parts of the piece you are talking about!

2) Analyzing Strategies for Creating Effective Table Layer (i.e., Base)

- a) Put a check mark in the box for the statement you think is most correct for winning NMBR9:
- 1. It is more important to build the best base (table layer) you can before stacking up to higher levels
 - 2. It is more important to start stacking pieces on higher levels as soon as you can
- b) Explain why you chose either statement 1 or statement 2:

Think about it for next time: Do you have certain pieces that you hope to see come up in the first few turns? Why?
