### 1) Interpreting the Board to make Strategic Plays

- a) As a group, create the board so it matches the one in the picture above. 12 turns have been played so far in the game (8 turns left).
- b) The next four numbers drawn are **4, 7, 6 and 8**. Try and get the highest score possible using any **three** of the **four** numbers drawn. Feel free to experiment on the board!
  - **Draw** on the photo above where you would put the tiles.
  - **Defend** your choice of numbers and placement below with words.

### 2) Justify Moves with a New Game Rule

- a) The new game rule I played is: \_\_\_\_\_
- b) Explain how the new rule changed the game and affected your strategies for getting a high score.

### **3) Generalizing Strategies in Nmbr 9**

What are two tips you would give someone who was just learning to play this game?  
Explain with words and drawings.
